

2023 Oasis Shootout Registration Form

This will be the inaugural Oasis Shootout. The purpose is to use our location to fulfill a need for competitive summer shootouts that can encompass at least the states of Colorado, Kansas, Missouri, Nebraska, New Mexico, Oklahoma, South Dakota, and Wyoming. With the recent addition of the Colby Event Center, a beautiful new facility that is home to the Colby Community College Trojans and the Colby High School Eagles, we are now equipped to host an event that can accommodate a contest of this magnitude every year. Our hope is to provide an opportunity for various teams to play schools of similar size and ability in other regions and other states that they would normally not compete against. Additionally, we hope that it is a learning experience for coaches to network and see other ways of having success.

Colby, Kansas is located on exits 53 and 54 of Interstate 70. We have over 600 hotel rooms in Colby with another 12 hotels within a 40 mile radius and two more hotels within a 70 mile radius. All of those hotels are either on interstate or other major highways. Within that 40 mile radius, there are another 36 restaurants. Additionally, there are 66 colleges within a 300 mile radius of Colby that we will be inviting.

The cost for the shootout is \$250 for each team that your school brings. This will be a two day camp. All teams are guaranteed a minimum of (5) five prescheduled games based on the coach's answers to the questionnaire on the next page. That cost will also include a t-shirt for each coach and player. We are working with the area restaurants and hotels for price breaks on all of the teams that choose to come to our shootout. Our goal is for Colby's hospitality to be 2nd to none.

Facilities Information

The main location for check in and games will be at the Colby Event Center (pictured below). We have the capacity to have four games in two gyms going at once. Should there be a need to expand, we will play games at Colby High School, Colby Elementary School, and possibly even in a couple of towns that are a short driving distance away.
