

# 1ST ANNUAL ATHLETICS LEADERSHIP SUMMIT

APRIL 1, 2023

The purpose of the Athletics Leadership Summit is to bring together leaders in all athletic areas for a common purpose: Developing Champions of Leadership. Our panel of experts will cover topics that will address different elements of athletic leadership which will enable us all to go and champion our own "ships".

Leaders in education-based athletics not only teach the skills and knowledge to play a particular sport, but they are also mentors, role models, teachers, and natural school leaders.

Join us as we tackle the difficult issues specific to education-based athletics in an effort to impact our student athletes, our schools, and our communities by growing and developing as leaders.
